## SAFETY KEY

See important notice below and page 35 for full details of the UKCA/CE standards coding changes.

SAFETY STANDARDS SHOWN BELOW AND ON FOLLOWING PAGES MEET BOTH CE AND UKCA REQUIREMENTS FOR CERTIFICATION

EN ISO 20345:2011

Toe protection tested with 200J impact and 15kN compression force. Fuel Oil resistant outsole. (SB)

- A Antistatic Electrical resistance between 100kΩ and 1000MΩ
  - P Penetration resistant outsole of 1100 Newtons
  - E Heel energy absorption 20 Joules
  - HRO Heat Resistant to 300°C for 60 seconds
  - SRC Anti slip tested on ceramic tile wetted with dilute soap solution and smooth steel with glycerol
  - WRU Water resistant leather uppers
  - CI Cold Insulation Certified to -17°C for 30 minutes
  - AN 10J ankle impact protection
  - HI Heat Insulation Certified to +150°C for 30 minutes
- Short code combinations:
- S1 SB + A + E + Closed seat region
  - S2 As S1 + WRU
  - S3 As S2 + P + Cleated outsole
  - S5 As S3 except uppers are in rubber or all polymeric material

ESD Electrostatic discharge Class 2 – Dissipative EN388 covering protective glove construction, abrasion and blade cut resistance, tear strength and puncture resistance.

**IMPORTANT! UKCA/CE STANDARDS CODING CHANGES.** The new coding format is already appearing on a number of Buckbootz products. The change will extend to all products on a rolling change basis.

## NEW PRODUCTS PIPELINE

The peak seasons are on us and inside you will find more new products designed to delight consumers and merchants alike.

First up is **BBZ 9000**, destined to be the safety welly product of 2025. Go to page 3 to see what's in store: a knock out design complete with metatarsal protection.

On page 7 you will see the latest product in our **BuckzViz**® range: **BVIZ 7** with high visibility and reflective detailing and Fitgo® wheel and cable lacing system. Both BBZ 9000 and BVIZ 7 join the Buckbootz® WE SEE YOU collection of high visibility and reflective safety footwear products which have revolutionised the perception of what great safety footwear looks like.

Page 12 is where you will find another two new Buckbootz® Tradez® products which will (as the launch message claims) blow the doors off your safety footwear sales. **Blitz** you already know but in **Stone** leather it really does look something else. **Blastz** in the same Stone leather takes the great looking Blitz grid pattern front/back scuff protection up to new heights in a new lace and zipper closure boot style with the kind of presence only real stars can command.

## WE SEE YOU

Introduced in 2023 the Buckbootz® WE SEE YOU message headlined the story of our high visibility, reflective safety footwear collection. It is probably one of the most successful safety footwear campaign messages ever and courtesy of national end user advertising has been delivering boom sales for Buckbootz® dealers and merchants right through 2024. WE SEE YOU is already part of

who we are and what Buckbootz® stands for and don't forget that every WE SEE YOU product is waterproof non-metallic and brings 360° visibility at 100 metres distance.

## IF FURTHER PROOF IS REQUIRED

Around 80% of all Buckbootz® sku's are waterproof, guaranteed waterproof so consumers and merchants have a great choice of leather and neoprene/rubber products to take them through the autumn and winter season in safety and comfort.

## FOR BBZ READ BBZ

The three letters 'BBZ' have become synonymous with the Buckbootz® BBZ® range of neoprene/rubber safety wellingtons. The range currently carries our well known 'Arrow B' logo. However in recognition of the high profile of the BBZ® sub brand we will progressively introduce BBZ® branding to the entire neoprene/rubber product range. The stunning new BBZ 9000 on page 3 is the first BBZ® product to carry the logo which also provides an enhanced area of reflectivity.

Go into the autumn winter months confident that you have some of the best selling highest quality, dynamically designed safety footwear in your product offering.

Thank you for sharing our enthusiasm for Buckbootz® products and the Buckbootz® brand.

Kind regards,

Andrew Duncan  
Chairman and Co-founder,  
Buckler Boots Ltd

Please note that unless otherwise advised to us by your business, Output VAT on applicable safety boots will be Zero Rated on the basis the products will be used for onward supply in retail or wholesale distribution. All other products including safety trainers, non-safety footwear, workwear and accessories will be charged at Standard Rated VAT. You must inform us immediately if safety boots are being purchased for use by your employees in which case Zero Rated VAT will not be permitted by HMRC guidance and Standard Rated VAT will apply accordingly instead.

How do you make a boot with metatarsal protection look good?  
Make it better looking than a boot without metatarsal protection!

# BBZ 9000

BBZ 9000 BK

BBZ 9000 GY OR

With the launch of the BBZ6000 neoprene/rubber CE/UKCA S5 safety boot in 2008, Buckbootz redefined the humble safety welly.

By advancing the design, construction and specification to create BBZ 8000 in 2020 and now adding **BBZ 9000** with metatarsal protection, Buckbootz has taken the concept to new horizons and created some of the most sophisticated and advanced safety footwear products on the planet.

BBZ 8000 combines high visibility and 360° reflectivity with certified ankle protection in its extensive safety and comfort specification.

Now **BBZ 9000** does the same with metatarsal protection - plus one major difference. In its design **BBZ 9000** incorporates a distinctive sloped collar shape which allows two reinforced pull on lever openings to be built in to the leg stem. Easy to put on, easy to remove thanks to the kick off heel spur and the kind of snug fit which BBZ is renowned for.

The reinforced pull-on levers withstand a 70kg pull test. That's 140kg per boot - more than Tyson Fury's fighting weight!

**BBZ 9000** is the first Buckbootz BBZ product to carry the BBZ logo which will become a feature on all BBZ products. **BBZ 9000** is part of the WE SEE YOU family so the logo is reflective, of course. It is also the first member of a new Buckbootz® **METZ** product range which features metatarsal protection.

**BBZ 9000** is certified to CE/UKCA standards:  
**S5S HRO FO LG SR M CI HI + ESD**

Sizes 3 -13. RSP £115.00.

## IMPORTANT PERFORMANCE INDICATOR

**BBZ 8000** and **BBZ 9000** have both passed the **EN 13832-2:2018 Type U** (upper protection) tests which measure chemical resistance to n-heptane (equiv. to diesel), 30% hydrogen peroxide and 13% sodium hypochlorite (bleach/chlorine bleach).

**BBZ 9000** deliveries commence in December 2024.

### BBZ 8000 GR

- Forest Green/Grey trim/Silver reflectives
- 5mm neoprene with rubber protection and Aerospencer breathable lining

# BUCKZVIZ®

# BVIZ7 BK OR

**NEW!** Available from December 2024

**Non-marking!**

We think Buckbootz can fairly claim to have created some of the most eye-catching safety footwear styles on the market - and it's happening again.

Buckviz **BVIZ 7** doesn't only catch the eye it turns heads. Buckbootz creativity excels with this exceptional super lightweight waterproof safety boot which incorporates high visibility, 360° reflectivity and Fitgo® wheel and cable lacing system in a stunning design which comes with CE/UKCA safety standards: **S7S SC HRO FO LG SR WR**.

**BVIZ 7** uppers combine cowhide leather, Cordura® and a distinctive thermo polyurethane hi-viz flank brace. The anti-scuff toe protector has SC anti-abrasion certification. The rubber (we don't use anything else) outsoles are oil, slip and heat resistant, non-marking and fitted with ladder grips. The Fitgo® wheel and cable lacing system withstands a weight pressure test of over 40kg.

Sizes 4-13. RSP £89.90.

## BVIZ5 BK OR

## STONE BLASTZ OFF!

When Blitz meets Blastz in Stone you get an even bolder Buckbootz style which will blow the doors off your safety footwear sales.

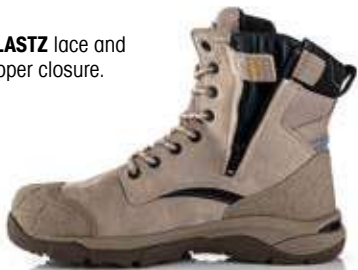

High leg lace/zipper boots make a real footwear statement and **BLASTZ** in Stone cowhide leather does that in some measure.

End users love the front/back anti scuff grid protection we developed for our record breaking Blitz style. In fact it looks so good on Blastz that we are going full circle to launch **BLITZ** in Stone too.

All the safety, comfort and performance features which have made Blitz such a runaway success are incorporated in the Blastz higher leg design which features a lace with zipper closure combination.

**Both products are scheduled to hit the market from January 2025.**

**BLASTZ** lace and zipper closure.

### Blastz Stone

# THEY SAID IT COULDN'T BE DONE!

After two years of constant design development and wear testing Buckbootz announced a major breakthrough in dealer boot design in 2022: **bANG guardz®**.

Like many good ideas the solution to providing ankle protection on a dealer style is a simple one: build the stretch area into the top part of the front of the boot to enable the ankle protection to be built into the sides. However, that is only the beginning of the story. The real test is in perfecting the boot upper design and components combination so that all the wearer convenience of a normal dealer boot design is not compromised. Getting that right has brought an impressive bonus: you would not believe how comfortable the **bANG guardz®** dealer boot style is, nor its lace style stable mate. The EN/UKCA standard ankle protection (standard code: AN) built into these styles provides the extra benefit of unsurpassed snug fit, comfort and support.

Both styles also come with Buckbootz Achilles Clasp heel support and S3 HRO AN SRC certification and both are WATERPROOF - **even the elastic on the dealer style is waterproof!**

**bANG guardz®** joins a long list of Buckbootz protected designs which have broken with convention and brought completely new dimensions to safety footwear performance, function and comfort.

## BSH014 BK

- Pull on boot
- **Waterproof**
- Non-metallic

## MORE MAGIC FROM BUCKBOOTZ

Buckbootz weaves more magic with the creation of a budget priced product group designed for end users requiring a comprehensive safety specification for use in less demanding working environments and which redefines the notion that cheaper equates to lesser.

Wizardz® have spent two years in the development and testing pot to ensure merchant and consumer confidence in products which exceed all expectations including impressive testing standards credentials.

# SOLE BROTHERZ

Lacerz®

Dealerz®

Brothers don't always get along but these two are great buddies, in fact although they are not identical they could be twinz.

They share very similar uncluttered good looks and many other features and characteristics - all born of their Buckbootz pedigree and a commitment to safety which is in the DNA.

The safety and comfort specification is one which any footwear family would be proud of.

- S7S HRO FO LG SR WR
- Dark Brown Crazy Horse Leather
- Super lightweight
- 100% metal free
- **Waterproof**

- Removable washable cushion insole
- Sizes 6/40 to 13/47

## DEALERZ® S7S HRO FO LG WR NON-METALLIC

Injection moulded safety footwear

### Dealerz® Safety

Buckbootz has been at the forefront of the development of the elastic sided work boot style which we call 'dealer'. Our original dealer style safety boot B1150 has become something of an icon and has been followed by variations of the dealer style in injection moulded construction. So why introduce another variation of the theme? Well, when it comes to Buckbootz dealer style safety boots we believe you can't have too much of a good thing and that is why we introduced **Dealerz®** with plain toe styling to our Nubuckz range with the option of a non-safety specification. See page 34.

# LACERZ® S7S HRO FO LG SR WR NON-METALLIC

Injection moulded safety footwear

If you are a **Buckbootz® Dealerz®** fan and would like the option of having key elements of that distinctive yet uncluttered boot style with lacing closure then **Lacerz®** will bring you joy.

If you're not familiar with **Dealerz®** then you'll like **Lacerz®** classic plain toe profile with that vital bit of comfort width and the whole cut, quadruple stitched galosh look which projects an image of footwear with a real outdoors pedigree. But don't be fooled. **Lacerz®** eye catching appearance conceals a safety boot with a specification which literally wipes the floor with a host of competitor products for whom rugged reads dull.

# STAY DRY STAY SAFE SHED WEIGHT LOOK GREAT

From its unmistakable Buckbootz 'Hard As Nails' profile to its rugged good looking dealer boot styling **B1180** carries its Buckbootz heritage and branding with pride. With its extended whole cut vamp and beefy heel counter this is a waterproof safety boot with gravitas and real substance.

Using construction and components designed to withstand the roughest treatment, **B1180** combines strength with light weight thanks to an aluminium toecap, kevlar midsole and the new Buckbootz K11 dual density sole. K11 lets us retain all the legendary Buckbootz rubber outsole durability and features which now include ladder grips, at a weight saving which will win over a new generation of Goodyear welted safety boot wearers. With Buckbootz

characteristic attention to detail we lock stitch the toe plate and beef up the outer sole rubber depth at the critical heel/ground contact area.

**B1180** also brings three dimensional Buckflex fitting with three flex-stretch areas at the boot collar. This makes fitting and removal a stroll in the park and enables the collar to retain its neat look and snug fit at all times.

# A STROLL IN THE DARK

Our dealer network tells us and we believe it, our tried and tested BBZ 5020 non-safety knee boot has the lowest rate of return of any similar product on the market.

And now a new dawn beckons. We bring Buckbootz latest sole/upper construction and renowned expertise in designing high spec, high performance, super comfort neoprene/rubber safety footwear to those whose requirement is no more than taking the dog for a walk or going for an evening stroll - safely.

Walkerz® are walking wellies like no other on the market. With reflective detailing and trim enhancement they provide 360° visibility - night and day. But that's not all. Walkerz® provide total ease of fitting and removal. Collar roll in is eliminated at fitting thanks to the sloped design which accommodates two reinforced pull on lever openings which each withstand a 70kg pull test. Removal is made easy with heel kick-off spurs. Like most good ideas, simple. They look great too!

- K3 Rubber outsole
- Sizes 6/40 to 13/47
- RSP £92.60 (+VAT)

Full Cowhide Lining

- B1500**
- Non-safety dealer boot
- Dark Brown Crazy Horse Leather
- K3 Rubber outsole
- Sizes 6/40 to 13/47
- RSP £87.00 (+VAT)

## Buckbootz leather styles

Our **Beezwax Leather Gel** bring nourishment to the cowhide leather uppers on Buckbootz footwear.

The gel brings the satisfaction of applying the leather treatment by rubbing goodness into the leather and restores the distinctive and unique look you get from quality leathers.

Boots used in tough working environments get rough treatment but their life can be greatly extended by making sure that muck, loose dirt debris and grime are removed from the uppers at least once per week using no more than a brush and a small amount of water. Allow them to dry naturally then apply the gel treatment. There's no harm in applying a little gel to boots before their first wearing.

## Never harsh dry leather!

Wet boots should be stuffed with dry newspaper and allowed to dry naturally before rubbing Buckbootz Leather Gel into the leather. Care should be taken not to use the gel too liberally. Over exposure to gel and other conditioners can cause the structure of leather to break down irreparably.

Harsh drying will cause the leather to shrink crack and go brittle. This condition cannot be reversed.

## BBZ Buckbootz Neoprene/Rubber Boots

Should be hosed down at the end of every day's wear. By virtue of their leg as well as foot protection, wellington type boots tend to be worn in environments where they come into contact with many external agents which can break down and weaken the structure of the rubber if not removed. This can lead to the rubber weakening and cracking.

Wash down with warm water after the boots have had contact with diesel, petrol, lubricants and other petroleum derivatives.

A spray called ReviveX® will help to restore the flexibility and appearance of the rubber areas but regular hosing down after use will go a long way towards extending the effective life of BBZs.

## Buckviz Hi-Viz Cordura® areas of the uppers

Use warm water with a soft brush, allow to dry then apply Nikwax Tent and Gear spray.

# NEW TESTING SAFETY STANDARD CODES

Table showing the old 2011 safety standard test requirements compared to the updated 2022 standards

MARKING CODES TO DEFINE LEVEL OF PROTECTION PROVIDED: EN ISO 20345:2011		MARKING CODES TO DEFINE LEVEL OF PROTECTION PROVIDED: EN ISO 20345:2022

<b>SRC</b>	Slip resistant for both SRA and SRB		Slip resistance now been replaced by SR
		<b>SR</b>	Slip test will feature glycerine on ceramic tile surface

To assist dealers in becoming familiar with the new coding we use **BVIZ 6** as an example of a product with a really comprehensive safety specification and carrying the new coding.

In this case the code reads:

**S7S SC AN HRO LG WR**

Please note that other Buckviz styles now carry the new coding.

**S7** is effectively the old S3 standard for leather (and/or textile) uppers but with waterproof specification ie safety toecap, anti-penetration midsole, anti static, heel energy absorption, cleated outsole, waterproof

**S** denotes anti penetration (Nail Stop) non-metallic midsole tested to maximum standard. Sometimes appears as PS and shown separate from S7 (for example)

**SC** Scuff cap abrasion resistance

**AN** Ankle impact protection

The slip resistant\* rubber outsole is:

**HRO** Fuel oil resistant

**LG** Fitted with Ladder Grips

**SR** \*New standard anti-slip testing completed and certified. Production pending.

Whole boot:

**WR** Waterproof membrane system fitted (as per BVIZ 6 spec)

**Very Important!** UKCA/CE test certificates showing the EN ISO 20345:2011 reference are valid for the duration of the certification period. The change to EN ISO 20345:2022 certification is a progressive one. EN 2011 styles promoted are backed by live & permitted UKCA certificates.

Add to the Buckbootz experience with these performance enhancing accessories

## Buckbootz Boot Laces

- Buckbootz original boot laces in a display pack of 10 pairs
- Black or Brown
- 55"/140cms long
- Dealer pack: 10prs per pack
- RSP £3.20 (+VAT)

## HandGuardz® HG1

- EN/UKCA certified for general use in construction and agriculture
- Palm grip and finger end protection
- Neoprene stretch over fist
- Elasticated cuff with Velcro tab adjustment
- Available in sizes L, XL and XXL
- RSP £15.95 (+VAT)

## Buckbootz Cool Socks

- A work sock for all seasons featuring Coolmax® yarn to optimise temperature control.
- Elastic shaft provides extra support and stimulates blood circulation
- Extra protection of the heel and extra reinforcement for even longer life
- Arch support at the forefoot to prevent the sock from sliding
- Supports the foot sole by absorbing the shocks
- 68% Coolmax 30% Polymide 2% Elastane Lycra
- Available Sizes S (5-8), M (9-12), L (13-16)
- Dealer pack: 6prs per size
- RSP £7.55 (+VAT)

## Buckbootz Cordura® Socks

- Tough working boot socks built with Cordura® reinforcement at the heel and toe areas.
- Arch Support
- Leg Support
- Shock Absorption
- 53% Cotton, 22% Polymide, 11% Coolmax, 8% Cordura®, 6% Elastane Lycra
- Available Sizes S (5-8), M (9-12), L (13-16)
- Dealer pack: 6prs per size
- RSP £8.95 (+VAT)

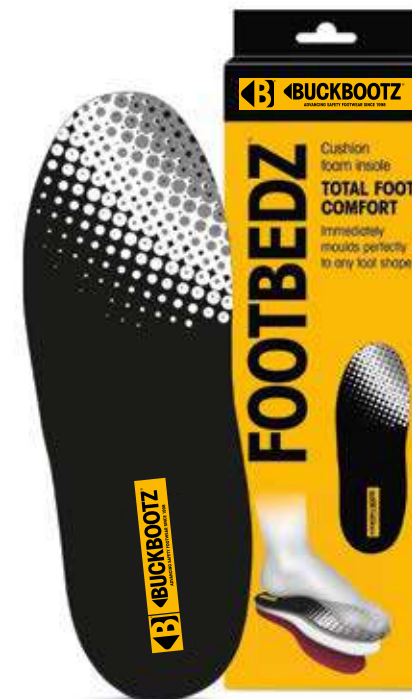

## Buckbootz Leather Gel

- Ideal for cleaning and conditioning all footwear leathers without detracting from the natural leather look.
- Dealer pack: 6x50ml jars per carton.
- RSP £4.30 (+VAT)

## Footbedz™ Insoles

- Footbedz™ are designed to make Buckbootz a joy to wear ensuring that wearers get optimum comfort and support. Footbedz™ are constructed in a triple layer format and bring new levels of comfort, freshness and deodorising.
- Sizes 6/40 to 13/47 in full sizes. No minimum quantity.
- RSP £6.50 (+VAT)

# OUR HEART AND SOLES

There has never been a Buckbootz style which hasn't featured rubber outsoles

## Tradez® Blitz

This great looking rubber outsole is a fitting companion for our great looking Tradez® Blitz safety lace boot style. The contemporary chunky wedge cleat design is complemented by sports footwear thermo polyurethane arch and heel inserts. UKCA/CE anti-slip certification, non-marking and Fuel Oil resistant.

## Tradez® - Baz/Kez

Street look with workplace performance. Unmistakeable sneaker side profile gives way to a sneaker sole re-modelled for tough working environments. UKCA/CE anti-slip certification and non-marking. Heat (300°C) and Fuel Oil resistant.

## K11

A brand new non-marking dual density sole complete with certified ladder grips. Amazing weight saving whilst retaining Buckbootz reputation for creating tough and durable rubber outsoles. Extra rubber at heel/ground contact area. Heat (300°C) and Fuel Oil resistant sole. Lock stitching at toe.

## K12/BBZ 8000/WALKERZ®

BBZ 8000 is a great product from the soles upwards so it is vital that the soles incorporate the very latest tread design techniques to maximise grip, extend life and reduce weight. K12 does all of these plus it comes with UKCA/CE anti-slip certification and is non-marking. Heat (300°C) and Fuel Oil resistant.

## Buckshot®

The Buckshot® sole is featured on our injection moulded Buckshot boot range. It has some of the best anti-abrasion test results achievable. A great looking sole with wave effect sipes, deep cleats and all the outsole benefits which come with rubber plus UKCA/CE anti-slip certification and is non-marking. Heat (300°C) and Fuel Oil resistant.

## Nubuckz, Buckviz®, Dealerz®, Lacerz®

For our injection moulded Nubuckz, Buckviz®, Dealerz® and Lacerz® styles we use a deep cleated rubber outsole specially designed to interact with the polyurethane top sole in which the anti scuff and defining feature. Slip, Heat (300°C) and Fuel Oil resistant and non-marking with Ladder Grips.

## K3

The renowned Buckbootz sole for most Buckbootz Goodyear welted leather styles and BBZ 6000 and BBZ 5020 neoprene/rubber footwear. Features weight saving wave effect sipes and inherits the rugged long life characteristics for which Buckbootz is renowned. UKCA/CE anti-slip certification. Heat (300°C) and Fuel Oil resistant. Lock stitching at toe.
